

The www.enterjamaica.com site that has been developed to facilitate passengers submitting the online passenger declaration form to Jamaica's Immigration and Customs officials at the island ports of entry has not been hacked or compromised. The site is safe and persons information is protected **and it is Free. there are no fees associated with this sight.**

It has been brought to our attention that there are a number of sites mirroring or offering services to the public for the uploading of information for passengers who are submitting their passenger declaration prior to arrival in Jamaica. These sites are also charging fees to facilitate this service that they are offering.

Passengers and the public are reminded that the site they are to submit their online passenger declaration form is www.enterjamaica.com that is the official and only authorised site to be used for the submission of the declaration forms. To date over 22, 000 thousand applications have received and processed through the www.enterjamaica.com site. We would like emphasis that there is **no charge** to use this facility.
